## CONDITION OF THE MARKETS

More Speculative Business in Wheat Transacted at a Little Lower Values.

One Operator Apparently in Full Control-Corn Holds Fairly Steady-Oats Stagnated and Hog Products Unchanged.

MONEY, STOCKS AND BONDS.

Successful Bear Raid, with Atchison as th Weakest Point. NEW YORK, Jan. 14.-Money on call was easy, ranging from 2 to 7 per cent. the last loan being made at 2, closing of-

Prime mercantile paper 54@7 per cent. Sterling exchange quiet but heavy at \$4.8134 for sixty-day bills and \$4.86 for de-

mand. The total sales of stocks to-day were 192,-451 shares, including the following: Atchison, 19,410; Delaware, Lackawanna & Western, 27,260; Kansas & Texas, 3,539; Missouri Pacific, 8,310; New Jersey Central, 2,725; Northern Pacific preferred, 3,600; New England, 3,370; Reading, 36,700; Richmond & West Point, 4,872; St. Paul, 13,906; Union

Pacific 9,500. The stock market was dull, with a moderate business in a few stocks only, and while irregular, was weak during the greater portion of the day and declines are the rule this evening. The flurry in money yesterday encouraged some manipulation this morning, but it met with no success and the best rate obtained was 7 per cent., while after the abandonment of the efforts to get higher rates it sank back to as low The Reading excitement was entirestilled, and, relieved from this bus, the market showed a marked inclination to rally and the opening figures were generally from 1s to 12 per cent. better than last evening's figures. The room being generally in favor of a rally, further fractional gains were scored in the first few minutes' trade. The "bears," however, had no intention of permitting any such movement, and casting around for a vulnerable spot, Atchison was hit upon, as there was some selling for Boston account in the stock. Rumors in regard to the voting trust were circulated gard to the voting trust were circulated, but owing to the Reading episode, voting trusts are not in favor at present in Wall street, and both the success and probable failure of the plan were made excuses for selling the stock down. Its extreme decline was 2 per cent., and the stock was really the most active one on the list, which was something of a sensation after a long period of stagnation to which it has been subjected. The success in Atchison encouraged further pressure upon the coal stocks, and considerable liquidation was induced among the smaller "bulls" who are tired of waiting for an advance. The opinion of Chairman Walker in regard to the Union Pacific-Northwestern alliance became known toward the close, and resulted in selling Union Pacific down a fraction, and had some effect upon the remainder of the list. The liquidation in Wisconsin Central made further progress and the stock was moderately weak throughout the day. The market was devoid of other feature and was subject to alternate periods of weakness and stag-nation, the general drift of prices being almost steadily in the downward direction after the first rally. The unlisted depart-ment was as bare of feature as the regular list, though Sugar was moderately active and Illinois Coal and Coke continued to creep up and passed 28. The final changes are declines in all but a few cases, and Atchison shows a loss of 134 and Lackawanna 1

Railroad bonds were quiet and Reading issues sank back into a secondary position in the market, while the Kansas & Texas issues came to the front and, after a ma-terial decline, rallied handsomely in the sixes and sevens, while the fives closed at the lowest prices of the day. Out of the total of \$1,290,000 the sixes contributed \$129,000 and the sevens \$104,000. The general list was barren of feature, being steady throughout the day. Oregon Navigation firsts rose 3, to 113, Kansas Pacific sixes of

per cent., but the others are fractional

amounts only.

Government and State bonds were dull and featureless. Closing quotations were: Four per ct. reg... 126 | C., B. & Q. ...... 10612 | Four per ct. coup... 126 | C., St. L. & P. ...... 15 | Four and a 128 reg. 10412 | C., St. L. & P. pref. 4212 | Four and a 128 coup. 10412 | Fort Wayne...... 154 | Pacific 68 of '95... 116 | Illinois Central.... 119 Louisiana st'd 4s. 94 lg I., B. & W. . . . . 9 lg Missouri 6s. . . . 100 Lake Erie & West. 17 lg Tenn. new set 6s. 106 L. #### TRADING AT CHICAGO. Wheat Rules Lower-Corn Fairly Steady-

Oats and Pork at a Standstill. CHICAGO, Jan. 14.—The volume of trad-

ing in wheat was a little larger to-day at a lower range of prices. A prominent local grader was credited with being a liberal seller early and a moderate buyer later. The weakness on the market early in the session brought out some long wheat. There was no special reason given for the decline, other than the supporting power was lacking. Another quiet day was witnessed in the corn market, trading being in the main local and fluctuations confined within a 4c range. The feeling prevailing was firm early, but later an easier tone was manifested, the market closing firm. In the regular oats market inaction was again the rule. To-day and yesterday have been two of the quietest days in speculative trade experienced for a long time. Orders evidently were very limited, since few operators came upon the market. Trading was moderate in the mar-ket for hog products, and there are no particular changes to note. The leading futures ranged as follows:

Options.	Open'g.	Highest.	Lowest.	Closing.
Wheat-Jan Feb		77	77	77
May		82	8134	78 <sup>1</sup> 8 81 <sup>3</sup> 4

market was active on light and steady on heavy. Philadelphias, \$3.70@3.80; Yorkers, \$3.70@ 3.85. Three car-loads of hogs shipped to New Sheep—Receipts, 3,400; shipments, 2,000. The market was steady at unchanged prices. BUFFALO, Jan. 14.—Cattle—Receipts, 15 car-loads through and 30 car-loads for sale. The market was slow and a shade lower. Sheep and Lambs - Receipts, 10 car-loads through and 9 car-loads for sale. Sheep firmer; Hogs-Receipts, 10 car-loads through and 81 car-loads for sale. The market was firm and higher. Mediums and heavy, \$3.70 \$3.75; mixed, \$3.75; Yorkers and pigs, \$3.85.

## INDIANAPOLIS MARKETS.

Trade Improving Under the More Favorable Conditions-Prices Steady.

INDIANAPOLIS, Jan. 14. There was considerable activity in several departments of trade to-day and it is quite evident that good weather and solid roads would bring about a decided improvement in business. Wholesale men report bills of last year as having been fully as well paid as expected, and, as predicted in December, fewer bad bills were made in 1889 than in the preceding, or, in fact, in either of several preceding years. That there is at the present time a healthy tone to traffic none will deny. Money is easy, railroads are doing a good business, and the hog and corn crops are moving quite briskly. In prices to-day there were no important fluctuations. Butter, eggs and poultry carry a steady tone. Receipts are not as large as last week, in fact, poultry is a little scarce. The provision market is firmer, and more is doing in a jobbing way than ten days ago. Concerning other markets, there is little to say which would be of interest, all along the line steady prices being the leading characteristic.

The local market was more active than on Monday, shippers bidding with more freedom. For the white grades of corn there is a fair demand, and oats are in active request. Track bids ruled to-day as follows:

Wheat-No. 2 red, 77c; No. 3 red, 71074c; rejected, 65 @70c. Corn—No. 1 white, 30 c; No. 2 white, 30c; No. 3 white, one color, 29 c; No. 4 white, 25 27c; No. 2 yellow, 27c; No. 3 yellow, 262 26 c; No. 2 mixed, 26 c; No. 3 mixed, 26c; No. 4 mixed, 24 @ 24 2c; mixed ear, 26c. Oats-No. 2 white, 240 No. 3 White, 22 20; No. 2 mixed, 223sc; rejected, 19 & 20c. Bran-Local dealers are bidding \$8.25 @ 8.50; shippers are bidding \$8. Hay-Timothy, choice, \$11.25; No. 1, \$10.25 @10.50; No. 2, \$8.25@8.50. Prairie-No. 1, \$6.50 @7; 10wa, \$7.50@8.

Jobbing-Trade Price List.

CANNED GOODS. Peaches—Standard 3-pound, \$2.25@2.50; 3-pound seconds, \$1.65@1.75. Miscellaneous—Blackberries, 2-pound, 80@90c; raspberries, 2-pound, \$1.15@1.30; pineapple, standard, 2-pound, \$1.40@2.50; seconds, 2-pound, \$1.10@

1.20; cove oysters, 1-pound, full weight, \$1.05@ 1.10; light, 65@75e; 2-pound, full, \$1.90@2; light, \$1.10@1.15; string beans, 85@95c; Lima beans, \$1.20@1.30; peas, marrowfat, \$1.20@1.40; small, \$1.50@1.75; lobsters, \$1.85@2; red cherries, 95c@\$1.10; strawberries, \$1 20@1.30; salmon (tbs), \$1.90@2.50.

166.00

Farm and Fireside. Hitherto, when wool has been low, a remedy was found in improved heft of fleeces. This was not sufficient to make wool-growing pay. The cost of production, by the closest economies by some, was so reduced as to leave a margin of profit as satisfactory as in other industries.

While wool was so low in price, the best business view of the industry took cogniz-ance of incidental profits not counted upon

In feeds, wheat and other straw were found useful both as food and as a factor in comfort to the sheep, as well as the making manure in the stables and yards. Other cheap feeds, as bean straw and the coarser hays, were used as an occasional feed; barley sprouts and the refuse of the various manufactures, as glucose, breweries, etc., were found profitable. Cheaper grain feeds were substituted; refuse beans, peas and bran came into more general use In some instances ensilage has been profitably used in feeding sheep, both in breeding flocks, store sheep and fattening sheep. By these substitutes and the greater use of roots, the cost of keeping sheep has been greatly reduced from the use of corn, oats

and prime hay during the winter.

The most hopeful and enduring lesson we have learned, is the value of sheep with mutton qualities. There has been a query just how much wool and mutton we might expect from the same sheep. We do not know the limits to either of these products. It has been thought that increasing the size of the sheep had a deleterious effect upon the quantity and quality of the fleece at the same time. There is greater doubt now than formerly, and there are not lacking possible and valid reasons for the variations and failures of the past. In increasing the size of the carcass in former experiments, the selections have been unfavorable to the quality of the fleece as well as quantity. Everything has been sacrificed to size. One thing, as intimated before, is sure: the sheep combining wool and mutton has been the paying sheep. Nor is it expected that wool shall again hold the first place in sheep-raising in regions where lands are high and the cost of living expen-

The raising of lambs for market has been found most profitable, not only in districts contiguous to city markets, but, by the cheap rates of transportation they are raised hundreds of miles from the markets with entire satisfaction. Early, or hothouse lambs, have been largely raised by those who were prepared and willing to take the pains to raise and market them, and have brought extra prices in the city

Our sheep husbandry has become thus greatly diversified. The latter economics are welcomed, and the older ones are being looked into with business calculation and The present prices of mutton justify the

feeding of thousands of Western and South ern sheep on grain farms. The vast crops of corn, oats and hay are thus fed on the farm, adding, happily, to the fertility of the soil for future crops.

Kitchen Cabinet.

Boston Budget. A most convenient kitchen cabinet or table, said to have been designed by woman and made by her husband, should have a place in every kitchen. The table, which is of hard wood, is oblong in shape and not very high. It contains four drawers, two at one end of about the same size, a long one in the middle, and a fourth small drawer at the other end. These drawers are to be used for silver-polish, soap, scouring material, brushes for silver and glass, for dish-towels and cloths, and the countless other small things needed in dish-washing and baking.
There are also several shelves and open compartments of different sizes for holding

the kneading-board, rolling-pin, etc. But the special feature of the table is a high back like that attached to a plain sideboard or commode, against which are fastened at either end cranes to hold the jelly-bags or other substances that must be filtered, the cranes being so arranged that they may be turned back against the table when not in use.

Fastened against the back of the table are also two very narrow shelves, containing openings just large enough to hold in place the various knives, forks and spoons used in cooking, which are suspended in them vertically. In the center of the back is a small closed cabinet, in which may be kept the cook-books and other kitchen memoranda, the door of the cabinet being provided with a rack where the cook-book may be held securely and open at the right

Such a cabinet is of great value in saving both time and many weary steps, especially for those mistresses who have no maids, or in flats, where every inch of room has to be counted. By its side should be a chair of convenient height, for many things in house-keeping may be done as well sitting as standing, and not until women study conveniences and comforts for the kitchen as carefully as for the other rooms will house-work cease to be what a clever woman called an everlasting chore.

Farm Notes. An exchange recommends smoking the rat trap each time one is caught before being

set again. Before attempting to seed raisins cover them with hot water and let them stand fifteen minutes. The seeds can then be removed easily without a particle of waste. Every bull on the farm should be broken to the voke when it is young and be made to work. There is nothing so efficacions as work for tempering a savage disposition. The bull is dangerous because he is idle and

has nothing to do. Wood or coal ashes are among the best materials that can be used to loosen up a stiff, hard soil, says the Live Stock Indicator, and should be applied freely whenever they can be secured, while wood ashes are a valuable fertilizer.

A farmer in Texas gives his hogs one good feed each year of corn boiled in the poke root, three parts of corn to one of the root. He considers the root a preventive of cholera. In twenty-two years experience he has never lost a hog with this disease. Of the seven weeds which the "weed law" of Wisconsin requires farmers, under penalty, to destroy, says the Michigan Farmer, only one is a native of the United States, all the rest being naturalized importations from Europe, where they are common wild

If you wish to set a tree or vine where an old one has died out, says Farm, Stock and Home, remove a considerable amount of earth and fill in with good and fresh new soil. It will pay to take this trouble. A new plant, for some reason, recoils from taking root in the soil of one that has failed

A serious inconvenience often occurs at the shingles which surround brick chimneys. It may be easily cured by making a paste or mortar of tar and dry sifted road dust, and applying it with a trowel about four inches over the shingles. It will harden and form a perfect collar, lesting man years.

A Michigan farmer tells a contemporary how he manages to conquer Canada thistles, by the help of 200 sheep. He puts a small handful of salt on each thistle at Instruments filed for record in the recorder's office of Marion county, Indiana, for the twenty-four hours ending at 5 P. M., Jan. 14, 1890, as seldom appears the second year.

THE

## INDIANAPOLIS JOURNAL

DAILY, SUNDAY and WEEKLY

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press). in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianapolis Journal a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party, the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Journal gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known literary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.
